

化妆品工程

[Apply Now](#)

Company: TÜV Rheinland

Location: Guangzhou Shi

Category: business-and-financial-operations

Job Description

1. Regulatory expertise: deeply understand and stay updated with cosmetic regulations across key international markets including the EU, UK, USA, Canada, ASEAN, and Australia
2. Compliance management: oversee the compliance processes for cosmetics exports, including handling product registrations, filings, and related documentation
3. Toxicological assessments: perform thorough toxicological safety evaluations for cosmetics and personal care products to ensure consumer safety and regulatory adherence
4. Technical support and collaboration: provide robust technical support to business teams and collaborate effectively for client engagements, enhancing customer service quality
5. Regulatory monitoring: continuously monitor and update knowledge on global cosmetic regulatory trends to maintain compliance in all company activities

Job Requirements

1. Educational background: Bachelor's degree or above in Chemistry, Biology, Pharmacy, Toxicology, or a closely related field
2. Industry experience: preferential consideration for candidates with relevant experience in the cosmetics sector, particularly in R&D or regulatory compliance roles
3. Language proficiency: fluency in English, with the ability to comprehend technical documentation and communicate effectively in professional settings
4. Personal skills: high level of self-motivation and continuous self-improvement, coupled with

outstanding communication skills and a propensity for teamwork

5. Analytical Abilities: a detail-oriented approach with strong capabilities in analysis and problem-solving

Benefits

Insurance packages and health care

We are proud to save lives with what we do. Our employees' physical and mental well-being is just as important to us! We will be happy to provide details of our insurance and health care packages during our personal interview.

Experienced and international teams
